

## New Community Center/York Hospital Physical Therapy Building

**The Community Center Building Committee** is moving forward with the New Community Center Project. We are getting closer to our goal of a new Community Center for the residents of Kittery. Our tentative project time line is as follows:

April	Put project out to bid
April	Pre-bid Meeting @ Community Center Time TBA
May	Open Bids 3:00 p.m. Town Hall Council Chambers
May	Select Contractor
	Break Ground to be determined

**York Hospital Physical Therapy** facility will be housed with the Kittery Community Center. They will pay to build/design, maintain/staff/pay operational costs for their 2,500 sf area. What this means is that it will NOT cost the residents of Kittery any money to have York Hospital PT at the Center. In fact we will benefit greatly by having them with us. *We are still raising money for the Community Center Project and we need your assistance. Please help us to cover the rising costs of construction due to the long delay with this project. There are many levels of giving please contact Friends of Kittery Recreation, Maria Barth @ 439-4285. Together we can do this!*
